SENT VIA EMAIL

Gene Hamilton
America First Legal
Foundation 600 14th Street
NW 5th Floor
Washington, District of Columbia 20005
Via email: info@aflegal.org

Dear Mr. Hamilton:

This letter is our second interim release in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of May 4, 2022, assigned No. 21-01575, and subsequently assigned #22-00003-LT, for litigation purposes.

Enclosed are 286 pages of responsive records. After a careful review of these pages, some information was withheld from release pursuant to 5 U.S.C. §552 Exemptions (b)(4) (b)(5), and (b)(6).

EXEMPTION 4

Exemption 4 protects trade secrets and commercial or financial information obtained from a person that is privileged or confidential. The information withheld is commercial or financial information, such as a company insights report, and we have determined that the individuals to whom this information pertains have a substantial commercial or financial interest in withholding it.

EXEMPTION 5

Exemption 5 protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. Exemption 5 therefore incorporates the privileges that protect materials from discovery in litigation, including the deliberative process, attorney work-product, and attorney-client privileges. Information withheld under this exemption was protected under the deliberative process privilege. The deliberative process privilege protects the decision-making process of government agencies. The deliberative process privilege protects materials that are both predecisional and deliberative. The materials that have been withheld under the deliberative process privilege of Exemption 5 are both predecisional and deliberative, and do not contain or represent formal or informal agency policies or decisions. Examples of information withheld include comments, opinions, recommendations, and draft documents.

Page 2- Gene Hamilton

EXEMPTION 6

Exemption 6 protects information in personnel and medical files and similar files when disclosure would constitute a clearly unwarranted invasion of personal privacy. The information that has been withheld under Exemption 6 consists of personal information, such as names, email addresses, cell phone number, and conference and passcode numbers, and we have determined that the individuals to whom this information pertains have a substantial privacy interest in withholding it.

Please click on the following link to download a copy of your records (download access is open for 90 days).

Thank you for attending. Here are the slides. Also, as mentioned on the call, any contextual information that can be added to posts about VAERS could be very effective in education the public about what VAERS is. CDC.gov includes authoritative information about VAERS, such as the following taken from [this page](#): *"VAERS accepts reports from anyone, including patients, family members, healthcare providers and vaccine manufacturers. VAERS is not designed to determine if a vaccine caused or contributed to an adverse event. A report to VAERS does not mean the vaccine caused the event."*

COVID Vaccine Misinformation: Hot Topics

May 14, 2021

Agenda

Introduction

Hot Topics

1. Vaccine Shedding Rumor
2. Falsified VAERS Report
3. Potentially Misleading VAERS Posts
4. Depopulation/Bioweapon Conspiracy Theories
5. Expanded Emergency Use Authorization

LOGISTICS

Next Meeting Date:

- To be announced

Point of Contact:

- Want a follow-up meeting to discuss information presented? Contact **Carol Crawford** (cjl1@cdc.gov).

Centers for Disease
Control and Prevention
Office of the Director

DRAFT – THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

ADVISORY

Misinformation has been identified about COVID-19 vaccine safety.

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misinformation that COVID-19 vaccines cause “shedding.”

When	April 2021 – Present
Where	Digital Platform(s): All.
Status	False claims that COVID-19 vaccine shedding can cause adverse effects in people who are near recently-vaccinated people have been spreading on social media.
Potential Impact	Reduced vaccine acceptance and harmful policies from real-world institutions.
The Facts	Individuals who have received a COVID-19 vaccine cannot shed or release any of the vaccine components. In addition, none of the vaccines authorized for use in the United States contain a live virus so it is not possible to shed it.

DRAFT – THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

ADVISORY

Disinformation has been identified regarding a report made in the Vaccine Adverse Event Reporting System (VAERS).

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misinformation that a 2-year-old died after receiving the vaccine.

When	May 9, 2021
Where	Digital Platform(s): All.
Status	In mid-April, a false VAERS report began spreading on social media showing that a 2-year-old had died after participating in a vaccine trial.
Potential Impact	Reduced vaccine acceptance.
The Facts	After investigation, it was determined that this report was “completely made up,” and it has been removed from the VAERS database.

Centers for Disease Control and Prevention
Office of the Director

DRAFT – THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

2-year-old in Pfizer kids study dies after vaccine. Reported on VAERS. Look for Pfizer researchers to exclude her from the study, probably claiming her death had nothing to do with the shot, she was going to die that day, five days after vaccination anyway. That's how they roll.

Vaccine	Product	Trade Name	Lot	Expiration Date
COVID-19 mRNA VACCINE (PFIZER-BIONTECH)	COVID-19 mRNA VACCINE (PFIZER-BIONTECH)	COVID-19 mRNA VACCINE (PFIZER-BIONTECH)

 Vaccine Administered To (Other Information): N/A

VAERS 2.0 Report Form Only. All information is not available on this report form version.

Example post spreading false claim

Olga Robinson @OlgaRobinson
 "The original VAERS report of a 2-year-old dying after receiving the Pfizer vaccine no longer exists. CDC spokesperson Kristen Nordlund said via email it was removed from the system for being 'completely made up.'"
 Fact check: No evidence that a 2-year-old died after getting Pfizer COVID-19 vaccine. The false claim that a 2-year-old girl died after receiving a second dose of the Pfizer coronavirus vaccine is based on an unverified VAERS report.

ADVISORY

Potential Misinformation has been identified about the Vaccine Adverse Event Reporting System (VAERS).

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misleading information about VAERS reports.

When	December 2020 – Present
Where	Digital Platform(s): All.
Status	Users frequently share data and reports from VAERS that may be confusing or misleading to readers without further background or context about VAERS.
Potential Impact	Reduced vaccine acceptance and confusion.
The Facts	VAERS is a passive reporting system, meaning it relies on individuals to send in reports of their experiences to CDC and FDA. VAERS is not designed to determine if a vaccine caused a health problem but is especially useful for detecting unusual or unexpected patterns of adverse event reporting that might indicate a possible safety problem with a vaccine.

Is What The CDC's VAERS Not Telling Us The Real Danger Of The COVID Jabs?

The CDC's VAERS report has been used to gauge adverse effects and deaths from vaccines, but did you know that only roughly 1% of adverse effects and deaths occurring in the US pertaining to vaccines is actually reported? The same can be said for Europe's counterpart. could this mean that we are looking at more than 300,000 deaths in 4 months from the experimental COVID injections?

Some striking plots from the VAERS (Vaccine Adverse Event Reporting System) database.

According to VAERS, USA has had about 15 years worth of vaccine related deaths in just 4 months.

Safe and effective...

<p>ADVISORY</p> <p>Misinformation has been identified regarding the purpose of COVID-19 vaccines.</p> <p>Please Be On the Lookout for: Statements, pictures, posts, or messages containing vaccines contain are bioweapons, part of a depopulation scheme, or contain microchips.</p>	
When	December 2020 – Present
Where	Digital Platform(s): Twitter, Instagram.
Status	Conspiracy theories about the vaccine continue to spread, including that they are secretly a bioweapon or designed to control the global population. Many of these claims have been linked to Bill Gates.
Potential Impact	Reduced vaccine acceptance.
The Facts	COVID-19 vaccines are safe and effective. COVID-19 vaccines were evaluated in tens of thousands of participants in clinical trials. The vaccines met the FDA's rigorous scientific standards for safety, effectiveness, and manufacturing quality needed to support emergency use authorization.

The most important video you'll see this year... a MUST WATCH!
The so-called "covid vaccine" is NOT a vaccine. It's a weapon of mass destruction.
It's a bioweapon for genocide.
See this doctor describe it as such and he explains why he says so.
The spike proteins in it are being engulfed by the "axons" and then inhaled by the unvaxxed
around them. They cause blood clotting, respiratory failure, organ shutdowns and death.
<https://www.bichute.com/video/1601/WHYPlay...>
Please make this go viral... warn those around you.
If they insist on getting the covid "vaccine" after watching this, you'll have to stay away from them
to save yourself.
Stay away from vaxxed people!!!

BRICOUTE.COM
The Spike Proteins are a Bioweapon - Dr Larry Palevsky blows the lid off the Covid-Hoax!

For the trolls - vaccines are not safe they never have been. They are a slow poison taking years off peoples lives, dumbing down the kids, causing all kinds physical and psychological problems and illnesses, infertility and depopulation. They have always been a method of depopulation

DRAFT – THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

ADVISORY

Potential misinformation may occur about COVID-19 vaccines and adolescents.

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misinformation about the eligibility of 12- to 15-year-olds for the Pfizer/BioNTech COVID-19 vaccine.

When	May 12, 2021
Where	Digital Platform(s): All.
Status	The CDC Director adopted CDC's Advisory Committee on Immunization Practices' recommendation that endorsed the safety and effectiveness of the Pfizer-BioNTech COVID-19 vaccine and its use in 12- through 15-year-old adolescents. In recent weeks, there has been an increase in misinformation about adolescents taking the vaccine.
Potential Impact	Reduced vaccine acceptance.
The Facts	CDC now recommends that this vaccine be used among 12- through 15-year-old adolescents, and providers may begin vaccinating them right away.

Today, I adopted CDC's Advisory Committee on Immunization Practices' (ACIP) recommendation that endorsed the safety and effectiveness of the Pfizer-BioNTech COVID-19 vaccine and its use in 12- through 15-year-old adolescents. CDC now recommends that this vaccine be used among this population, and providers may begin vaccinating them right away.

Though most children with COVID-19 have mild or no symptoms, some children can get severely ill and require hospitalization. There have also been rare, tragic cases of children dying from COVID-19 and its effects, including multisystem inflammatory syndrome in children, or MIS-C.

This official CDC recommendation follows Monday's FDA decision to authorize emergency use of this vaccine in 12- through 15-year-old adolescents, and is another important step to getting out of the COVID-19 pandemic, and closer to normalcy.

It is, to speed 🇺🇸 Ppls 💰 downfall Along with drugging All the children with an untested unknown vaccination\$ that has no data or side effects listed, unlike common drugs they sell you on TV, that can harm you, but are still sold. Has government proven 2 🗿 trustworthy? No

DRAFT – THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

ADVISORY

Misinformation has been identified about the safety of COVID-19 vaccine ingredients. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misinformation that spike proteins from vaccines have an effect on fertility or other harmful effects.

When Early June 2021

Where Digital Platform(s): Twitter.

Status There has been an increase in speculation that spike proteins from the vaccine are harmful, including citing a “study” showing that COVID-19 vaccine particles accumulate in ovaries. This has been used to falsely claim that the vaccines will impact fertility.

Potential Impact Reduced vaccine acceptance.

The Facts There is currently no evidence that COVID-19 vaccination causes any problems with pregnancy, including the development of the placenta. In addition, there is no evidence that fertility problems are a side effect of any vaccine, including COVID-19 vaccines.

Leaked Pfizer study shows vaccine particles sequestering in OVARIES. Those who survive the injection will probably be left infertile.

Source: [https://www.foxnews.com/health/pfizer-study-shows-vaccine-particles-sequestering-ovaries](#)

Sample	Total (Left ovary + Right ovary) (per mL)		Left ovary (per mL)		Right ovary (per mL)

DRAFT – THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

ADVISORY

Misinformation has been identified about the COVID-19 vaccine ingredients and related side effects. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misleading or false information that vaccine ingredients cause vaccinated individuals to become magnetic.

When	May 2021 – Present
Where	Digital Platform(s): All.
Status	There continue to be videos shared widely on social media platforms claim to show individuals becoming “magnetic” after receiving the vaccine, further fueling the false claim that vaccines contain microchips.
Potential Impact	Reduced vaccine acceptance and spread in real-world spaces.
The Facts	Receiving a COVID-19 vaccine will not make you magnetic, including at the site of vaccination which is usually your arm. COVID-19 vaccines do not contain ingredients that can produce an electromagnetic field at the site of your injection.

Example posts

DRAFT – THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

ADVISORY

Misinformation has been identified about risks for individuals who have received the COVID-19 vaccine. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misleading or false information that vaccinated individuals cannot travel via airplane.

When	June 2021
Where	Digital Platform(s): Twitter, Facebook, TikTok, Telegram
Status	There have been claims that because of a risk of blood clots, airlines are not allowing vaccinated individuals to travel or are discussing a potential ban.
Potential Impact	Reduced vaccine acceptance and confusion.
The Facts	CDC recommends to delay travel until fully vaccinated. Not related to the COVID-19 pandemic, airplane travel, especially flights longer than 4 hours, may increase the risk for blood clots, including deep vein thrombosis and pulmonary embolism.

Airlines Are Addressing the Problem Of Blood Clots And Recommending Vaccinated People Not To Travel. The COVID vaccine side effects are beginning to stack up.

Hi Carol! I am adding in Todd and Reggie from our Public Policy team who will coordinate next steps.

Many thanks,
Meredith

Megan/Meredith – We are working on project with Census to leverage their infrastructure to identify and monitor social media for vaccine misinformation. We would like the opportunity to work with your trust team on a regular basis to discuss what we are seeing. I understand that you did this with Census last year as well. Are you all interested in scheduling something to kick it off and discuss next steps? I'm happy to discuss further as well.

Thank you!

Time is good. I did ask Genelle this embarrassing question. I had it in my head this was for Crowd Tangle. But on Thursday she explained it is for something else. Well, I didn't write it down and I'm honestly not sure what this is for. Sorry!

Thanks, Payton.
So nice to meet you, Carol.

Look likes Wednesday the 19th 12-1pm option works best for our folks.
Does that option still work for your side?

Hi Carol,

Genelle just went on (b)(6) We are very excited for her and (b)(6)
As such, we didn't want you to be a surprised that Carrie will pick up on the threads where Genelle was leading starting today.

That will include this one with scheduling training for the government case work project.

Best,

Payton

Hi Carol – Following up from our meeting yesterday. It looks like Monday, May 17th at 12:00pm will work for onboarding meeting. The overlaps with your standing Census meeting you mentioned. We will plan to invite the email addresses below (those being onboarded).

Please let me know if any flags on your end.

Best,
Genelle

Hi Carol – Hope the week is off to a good start. I wanted to bump this and see if you had any edits/additions to the onboarding list below.

Let us know if you have any questions.

Best,
Genelle

Hi Carol – Hope the week is off to a good start. We're working to get our COVID-19 misinfo channel up for CDC and Census colleagues. Could you kindly confirm if the below emails are correct for onboarding to the reporting channel and if there are others you'd like to include?

Please let me know if you have any questions.

Thank you!
Genelle

Attaching the latest CrowdTangle content insights report for the period of February 24-March 10 (attached). Here's the quick summary:

(b)(4)

This week, we also are including a one-off content insights report we did looking at Spanish-language content relevant to the US, which we thought might be interesting for you (as always, please do not share externally).

Let us know if you have any questions or particular keywords/topics you'd like us to explore for the next report.

Thanks,
Kelly
